Career Objective

A motivated B.Tech student in computer Science and engineering aiming for a position in Data Science to apply analytical and technical skills, project experience, and problem-solving abilities to real-world challenges, contribute to organizational growth, and enhance expertise in emerging data technologies.

Education:

Dhanalakshmi Srinivasan University, Tamilnadu <i>computer Science and engineering</i>	2022-2026 CGPA-7.0
Sri BRSR Jr College, Kadiri Intermediate(MPC)	2022 CGPA-7.3
Sri Valmeeki High School, Kadiri SSC (X)	2020 CGPA-9.4

Experience:

Data Science Intern | Cognifyz Technologies | Remote | June 2025 - July 2025

Performed data cleaning, preprocessing, and exploratory data analysis (EDA) on real-world datasets. Built machine learning models (Logistic Regression, Random Forest) and dashboards using Matplotlib and Seaborn.

Projects:

Sales Performance Analytics conducted end-to-end analysis of historical sales data by cleaning and preparing datasets, performing EDA, and creating visualizations for regions, categories, and customer segments. Built a linear regression model to forecast future sales, uncovering trends and actionable insights to support data-driven business decisions

Technical Skills

- Languages: Python, C, HTML
- Databases: MySQL, MongoDB
- Frameworks/Tools: Node.js, Git, GitHub, VS Code
- Libraries: Pandas, NumPy, Matplotlib, Seaborn,
- Concepts: Machine Learning, Data Preprocessing, EDA, REST APIs, Model Evaluation

Certifications

Data Scientist using python-IBM
Python for Beginners and java fundamentals -Scaler Topics
